

»My dear friend, have you any idea how important partying was at the Bauhaus? Often much more important than going to classes.«

# the bauhaus-archiv e.v. – an association with a long tradition

The Bauhaus-Archiv was founded as a private association by Hans M. Wingler in 1960, with the support of Bauhaus founder Walter Gropius and other former Bauhaus members. The founders' aim was to carry out research on and present to the public the history and influence of the Bauhaus (1919–1933) – probably the twentieth century's most important school of architecture, design and art. Through their personal commitment, donations and gifts, they laid the foundations for the world's largest collection of materials on the Bauhaus.

The Bauhaus-Archiv / Museum für Gestaltung is being renovated and expanded with a new museum building added during the next few years. In the meantime, we welcome visitors at the temporary bauhaus-archiv. Experimentation with presentation formats and cooperations, as well as events is the main focus of the temporary. We also offer a quick introduction to the Bauhaus and give insights into the history of our archive and museum. You will also find information on the new museum building. A membership of our association is open to all who are interested.
