

»My dear friend, have you any idea how important partying was at the Bauhaus? Often much more important than going to classes.«

# the bauhaus-archiv e.v. – an association with a long tradition

The Bauhaus-Archiv was founded as a private association by Hans M. Wingler in 1960, with the support of Bauhaus founder Walter Gropius and other former Bauhaus members. The founders' aim was to carry out research on and present to the public the history and influence of the Bauhaus (1919–1933) – probably the twentieth century's most important school of architecture, design and art. Through their personal commitment, donations and gifts, they laid the foundations for the world's largest collection of materials on the Bauhaus. Today, the Bauhaus-Archiv / Museum für Gestaltung is not only concerned with historical topics associated with the Bauhaus, but also increasingly addresses issues in contemporary architecture and current developments in the field of design. Membership of the association is open to all who are interested.
